

Trinaty
by Renee Smasne

I'd never seen eyes that
Sparkle like the moonlight
Until you were born
My little Trinaty

Your little toothless grin
The way you cooed at the cat
Always made me warm
Looking at your beauty
As I held you in my arms

But mommy had to go away
I told you i'd be back
I never got the chance my love
They called, and said you where gone

Your little heart stopped beating
Because you were born too soon
They said you just weren't ready
For the hardships of this world

I didn't get to say good bye
I hope you knew I loved you
I watched your ashes float away
On that cold dark December day
Floating into the sea
You'll always be with me in my dreams
My little Trinaty

He didn't get to say it
And you didn't get to meet
But daddy loved you angel
Will you watch over him for me?
Mommy still loves you
My little Trinaty
